

INTRODUCTION

WhatsApp API can be very useful for an IIT-JEE coaching institute

It helps you **connect better** with students and parents, **automate communication** and **improve operations**.

KEY USE CASES FOR IIT-JEE COACHING INSTITUTES

ADMISSIONS

Share course details, deadlines, documents list and admission updates instantly.

FEE REMINDERS

Automate fee reminders and payment confirmations to reduce delays.

ATTENDANCE ALERTS

Send real-time attendance updates to parents and students.

TEST UPDATES

Share test schedules, hall tickets, results and performance reports.

DOUBT SUPPORT

Enable students to ask doubts and get quick replies or ticket updates.

PARENT COMMUNICATION

Keep parents informed about progress, notices, events and important updates.

THE BEST FIT

WhatsApp Business Platform with CRM/LMS/ERP integration

So messages go out **automatically** based on **student activity** and **admin events**.

Where it helps

For an IIT-JEE coaching institute, CompuX WhatsApp works best in three stages: lead conversion, student operations, and retention. Education use cases commonly include admission inquiries, counseling scheduling, document reminders, fee follow-ups, class notifications, and automated support.

Typical coaching use cases:

1. New inquiry auto-reply with course details, fee range, brochure, and counsellor callback booking.

• **New inquiry auto-reply** with course details, fee range, brochure, and counsellor callback booking.

Course Details
Popular courses, eligibility, duration & more.

Fee Range
Transparent fee range to help you plan better.

Brochure
Download detailed brochure for complete information.

Counsellor Callback
Book a convenient time for a callback from our expert counsellor.

Instant Auto-Reply

Book Counsellor Callback
Choose Date: 24 May 2024
Choose Time: 11:00 AM
Confirm Booking

Our counsellor will call you shortly!

2. Demo class reminders, scholarship test invites, and admission deadline alerts.

3. Daily class reminders, timetable changes, test schedule notices, and result publication alerts.

Daily class reminders, timetable changes, test schedule notices, and result publication alerts.

Daily class reminders

TIMETABLE CHANGE		
Time	Old Schedule	New Sche.
10:00 AM	Maths	Computer Science
12:00 PM	Chemistry	English
02:00 PM	English	Maths

Timetable changes

Test schedule notices

Result publication alerts

4. Fee due reminders, installment confirmations, and receipt sharing.

Fee due reminders, installment confirmations, and receipt sharing

Fee Due Reminders

Installment Confirmations

Receipt Sharing

Particulars	Amount (₹)
Tuition Fee	4,500
Development Fee	500
Total	5,000

Amount Paid: ₹5,000

Share Receipt via   

5. Parent updates for attendance, test performance, and important academic announcements.

Parent updates for attendance, test performance, and important academic announcements

Attendance

Stay informed about your child's attendance and daily presence.

Test Performance

Track your child's test scores, grades, and overall progress.

Important Academic Announcements

Get timely updates on events, holidays, schedule changes, and more.

Stay connected.
Support your child's success.

Practical workflows

Automate the Student Journey with CompuX WhatsApp

A coaching institute can connect **CompuX WhatsApp** with its website forms, admission desk CRM, and LMS so the student journey becomes automated from first inquiry to final exam prep.

Meta's platform supports business-initiated template messages and user-initiated support conversations, which makes it suitable for both broadcasts and live counseling.

SIMPLE WORKFLOW

EXAMPLE MESSAGES A JEE INSTITUTE MIGHT AUTOMATE

From First Inquiry to Final Exam Prep – All Automated, All on **CompuX WhatsApp**.

Compliance and setup

**DON'T DO THIS**

One should **not** use bulk informal messaging from personal numbers for institutional communication.

**DO THIS INSTEAD**

Use official opt-in-based messaging through CompuX WhatsApp Business Platform.

Opt-in must clearly tell students or parents that they are agreeing to receive CompuX WhatsApp updates, what type of updates they will get, and how to stop them later.

What updates they will get

How they are opting in

How to stop (opt-out) later

GOOD OPT-IN POINTS FOR A COACHING INSTITUTE

1 Admission form checkbox for student and parent CompuX WhatsApp consent.

2 Website lead form with "Receive updates on CompuX WhatsApp."

3 Seminar or scholarship-test registration form.

4 Fee receipt or notice board QR code linking to opt-in flow.

ALSO KEEP THESE CONTROLS

Separate consent for marketing and operational alerts where possible.

Marketing ☒

Operational Alerts ☒

Store consent source, date, and number in your CRM.

Name	Number	Consent Source	Date
Riya Sharma	98XXXXXX34	Admission Form	12-05-2024

Give an easy opt-out such as "Reply STOP to unsubscribe."

 Respect consent. Communicate responsibly. Build trust with CompuX WhatsApp Business Platform.

Cost and message types

CompuX WhatsApp Business Platform Pricing

CompuX WhatsApp Business Platform pricing is based on **conversation categories**, including **Marketing**, **Utility**, **Authentication**, and **Service**.

Business-initiated conversations start through **approved templates**, while user-initiated conversations open a **24-hour service window** when the student or parent messages first.

For an **IIT-JEE coaching institute**, this usually maps well as follows:

Marketing

Utility

Authentication

Service

Message type	Likely category	Example
 Admission campaign, seminar invite, scholarship test promotion	Marketing 	"Register for JEE Scholarship Cum Admission Test this Sunday." 
 Fee reminder, class reschedule, admit card, test reminder	Utility 	"Your Maths class is shifted to 5 PM today." 
 OTP for student login or parent portal access	Authentication 	"Your login code is 482913." 
 Student asks doubt or parent asks attendance status	Service 	Live chat with counselor or support desk. 

Recommended rollout

Recommended Rollout

Start small and operational before using it heavily for promotions.

A coaching institute usually gets the fastest return from **fee reminders, attendance alerts, test notifications, and inquiry auto-response** because these reduce manual calling and improve response speed.

SUGGESTED IMPLEMENTATION PLAN
